

# WELCOME TO BRIGHT MINDS ACADEMY

Thank you for your interest in our All-Inclusive Learning Program, focused on helping children catch up; keep up, get ahead and succeed!

Whether you are looking for remedial help for your child or pure enrichment, we can help. Bright Minds aims in providing the tools and methods for academic success for every child.

These are the steps to success at Bright Minds:

1. Assessment Test
2. Comfortable Starting Point
3. Systematic process
4. Center Support
5. Daily Assignments
6. Level Completion Tests
7. Mastery Learning
8. Smooth Progress
9. Homework Help

**GOAL: Advanced Studies**

Bright Minds program is designed to provide mastery learning in both math and reading. Building confidence and developing focus step-by-step, our program creates a solid foundation on basics for all children. Guiding students each step of the way, many students get to the top of the class through daily disciplined study.

Parental involvement is essential for success in our program. Children need encouragement and praise at home to make sure the work is completed. Together we can help your child get to the top of the class and succeed.

## How long does my child attend the program?

Parents are encouraged to set higher goals and consider this program as a longer term program for better success. Advance study is the goal we set and we encourage and help students in achieving those goals. Most students stay at least 2 years and some are with us for as many as 10 plus years. After students get caught up and the foundation is solid, they are able to study ahead of the grade level and become self-reliant learners. But we also offer short term programs and support.
