

# JUNIOR BRIGHT School Readiness Program

Bright Minds' school readiness program is designed to help preschool-age children prepare to enter into a structured school environment with confidence. Bright Minds' preparation for formal education is focused on enhancing each student's listening, following directions, interactive, and cooperative skills. Our goal is to help children realize that self-discovery is the key to a happy and successful learning experience, both inside and outside the formal school system.

## Comprehensive Pre-K Skills and Concepts

At Junior Bright program we start training our preschool children on CORE subject from early on. Our fun filled and interactive programs helps toddlers learn with ease, grasp in depth and apply with confidence so they start to enjoy learning CORE concepts early on and take a leap in learning.
